

Anthem Lakes is prepared for storm emergencies

Anthem Lakes believes in robust emergency preparedness. Residents and families can rest assured that great thought and care have gone into planning and executing emergency services during storms and other emergencies:

- Anthem Lakes is a Category IV building structure registered as a refugee site with the city of Jacksonville
- The community stocks food supplies to serve hot, balanced meals
- Two emergency generators supply services to the site
- Running water/hot water will be available
- 2 on-site nurses are available to provide care, including:
 - › Accucheck
 - › Injections
 - › Eye drops
- Full-time maintenance staff is on-site to complete immediate repairs
- Staff will stay in the community overnight to provide seamless services
